LEAD OFFICE PROGRAMMING IMPORTANT UPDATES

Due to the University's recent response to the Coronavirus/COVID-19, the “University has extended spring break through March 20. After that time, we will transition to temporary virtual learning from Monday, March 23 through Friday, April 3”.

The LEAD Office is committed to the safety, health, and overall wellbeing of our campus community. We are working together to develop ways to make some of our programming available online, but we are also postponing some upcoming programs. Unfortunately, these are steps that the University had to take to protect the community’s health and safety. We appreciate your patience and flexibility as we go through this process. Please keep in mind this is a very fluid situation. See below for important programming updates for the LEAD Office from March 12-April 3rd.

For updated campus wide information, visit: https://www2.gmu.edu/coronavirus
